## GDPR Made Easier for **Multi-Academy Trusts** **The Sentry System from GDPR Sentry**

A simple, intuitive and powerful system to manage all aspects of data protection  
Document your data map and the work-flows for SARs, breaches and DPIAs utilising ICO templates  
Provide online training to ensure everyone understands their part in data protection

# EVERY ORGANISATION HAS A UNIQUE GDPR CHALLENGE

**Sentry** brings your GDPR compliance into one secure system  
Data Mapping, SARs, Breaches, DPIA and Training

## ONLINE TRAINING

Essential training for every member of staff. A set of four videos, followed by a test.

## SIMPLE DASHBOARD

Your data protection system at a glance. See what's open and what's still to be done.

## EASY WORK-FLOWS

When you have to record an incident, just work through the tabs, then export the ICO form.

## Sentry - GDPR Made Easier

Within most Multi-Academy Trusts, the task of managing data protection is often one of a portfolio of tasks for a single individual. The Sentry system can make the task easier by introducing a consistent approach across all the schools and the central team. In addition, the Trust has instant visibility of incidents and progress when they are logged.

With Sentry, you can decide how much of the process to manage centrally and how much to devolve out to the schools. This means that you can manage GDPR in the way that works for you.

## Sentry - safe and secure

Sentry was designed to make GDPR compliance easier. It was also created to be secure.

Your data is hosted on Microsoft Azure servers in the UK and your records are isolated from other customers.

We use Microsoft's secure password management system meaning we never store your credentials.

# FEATURES THAT MAKE COMPLIANCE EASIER

## MODULAR ARCHITECTURE

You can decide how compliance is managed across the Trust. Provide access to the relevant functions for your schools and you can deal with the others centrally.

## COMPLIANCE DASHBOARD

Do you want to know what the compliance status of your Trust is? Use the Sentry compliance work-flow to see how you measure up and where action may need to be taken.

## PROCESS TEMPLATES

Having problems with your process mapping? Sentry has built-in process templates and suppliers to make the task straightforward and easier to complete.

## SINGLE SIGN-ON

Sentry offers full user management including self service passwords. You can also use your Microsoft or Google account. One less password to remember.

**Sentry** does much more for you. These features all come as standard.

### ICO Templates

Where the ICO has set a format, that's what you can produce directly from Sentry.

### Alerts and countdowns

SARs and breaches are on the clock. You'll know when any task falls due.

### Customised set-up

If you need something that's not already in the templates, it's easy to create.

### Collaborative tasks

Several people can work together on a task to ensure that expert input is used.

### User Management

Five levels of access means that people can contribute without risks to confidentiality.

### Multi-Legislation

You can use Sentry to deal with Freedom of Information requests and others.

### Reporting

Run reports from your data map to support SARs and breaches. Check activity levels.

### Full Chronology

Create a timeline of actions you take in response to SARs and breaches.

### Technical Helpdesk

Got a problem, call or email the technical helpdesk. Support included in the price.

## Sentry for Multi-Academy Trusts

Multi-Academy Trusts have to deliver stretching targets across many domains. Financially, the Trust needs to leverage its purchasing power at the same time as reaching for higher standards in teaching and learning. Often these objectives are addressed by letting schools focus on the teaching while the Trust deals with the administration.

Sentry can be an essential part of this drive for efficiency as well as helping to protect the public reputation of the Trust and its schools. A badly managed data protection incident can inhibit your growth and development plans, in addition to any financial impacts.

## Sentry to Protect Your Organisation

If you have a failure in your data protection and a data subject suffers due to it, the ICO may determine you're at fault. You may not get fined, but legal action can be brought directly against the school or Trust.

Sentry gives you the tools to ensure you have:

- Checked your compliance against the ICO's own checklists
- Provided essential training to all your staff
- Documentation to show how you manage personal data

With Sentry on your side, managing your GDPR responsibilities can be straightforward.

## Sentry the Foundations

Qualified GDPR Practitioners

Ruler: Our Technology Partner

## Some of Our Customers

**THE CONSORTIUM**  
ACADEMY TRUST

The Consortium Academy Trust is formed of nine schools across East Yorkshire. The Trust includes Primary, Secondary and Sixth Form settings.

Geographic separation makes the co-ordination of information about GDPR compliance and incidents essential and the Sentry system makes this task straightforward.

**HAVANT & SOUTH DOWNS COLLEGE**

Havant and South Downs College have around 7,500 students across two campuses. Students range from 14-16 year olds through to Adult Learners and include those taking Further and Higher Education qualifications.

With strong centralisation of the data protection function, HSDC have taken advantage of the modular nature of the Sentry system to manage essential functions at the campus level.

The Sentry system forms an essential component for HSDC to demonstrate compliance.
